Disaster Management

To

The Principal Secretary to Govt.
Panchayati Raj & DW Department/ Housing & UD Department
All Collectors

Sub: Measures to be taken in order to prevent outbreak of possible water-borne diseases during summer & pre-monsoon period.

Sir,

You are aware that the scare of COVID-19 is continuing in the State. From the past experience, it is observed that peoples are likely to be affected by water- borne diseases like Jaundice during summer & pre-monsoon period. In order to prevent/ combat such situation, following interventions may be looked into.

1. Checking of old water pipes and leakage of water thereof & replacement of a new one.
2. All Under Ground Storage, Elevated Storage Reservoir / High Level Water Tanks need to be mechanically cleaned and disinfected.
3. All Government & private hospitals may be instructed to check their water quality with proper verification from competent authority and disinfect their water tanks/ reservoirs.

Hence, you are requested to instruct your field functionaries to take early actions stated above as preparedness measures for possible pre- monsoon related diseases and during heat stress periods.

Yours faithfully,

13/04/2020

Special Relief Commissioner &
Additional Chief Secretary to Govt.
Disaster Management
