FLOODS IN ODISHA

From 21st – 26th October 2013

SPECIAL RELIEF COMMISSIONER

REVENUE & DISASTER MANAGEMENT DEPARTMENT

Government of Odisha

Introduction

The Severe Cyclonic Storm "PHAILIN" that struck the State from 12th of October 2013 caused extensive devastation in 18 out of 30 districts in Odisha. The incessant rainfall on the effect of this cyclonic storm also caused severe floods in northern Odisha. Before normalcy was restored, incessant rainfall from 21st October to 26th October 2013 due to the effect of low pressure triggered yet another crisis, creating flood situations in Rusikulya, Vansadhara, Baitarani, Budhabalanga, Subarnarekha and other rivers affecting 13 districts namely Ganjam, Gajapati, Puri, Nayagarh, Khordha, Cuttack, Jagatsinghpur, Kandhamal, Kendrapada, Jajpur, Bhadrak, Balasore and Mayurbhanj. Continued heavy rainfall also severely impacted the relief operation in the areas which were affected by the Severe Cyclonic Storm "PHAILIN" and floods following that. Lakhs of people were marooned and vast patches of agricultural land were inundated due to the fresh spell of heavy rain and floods. Agriculture lands have been sand cast due to floods/ flash floods. Due to continued rainfall, houses of people and public infrastructure especially roads and embankments have been severely damaged.

Rainfall

Incessant heavy rainfall was experienced in different parts of the State during 21.10.2013 to 26.10.2013. The districts namely Ganjam, Puri, Gajapati, Khordha, Nayagarh, Kendrapada, Jajpur have experienced very to very heavy incessant rainfall during these days. The district wise rainfall during these days is at **Appendix - I**
